

BHAVIK K. RAIYANI

Surat, Gujarat, India | +91 96010 72320 | sendtoraiyani@ymail.com | linkedin.com/in/bhavik-raiyani

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 9+ years of expertise in designing, developing, and modernizing scalable enterprise applications across e-commerce, finance, property management, and AI sectors. Proven track record of leading technical transformations, migrating systems to microservices and cloud architectures, and implementing CI/CD automation to enhance performance, reliability, and business value.

TECHNICAL SKILLS

Backend & Frameworks: .NET Core, ASP.NET MVC, C#, Web API, Entity Framework, LINQ, CQRS, Microservices, REST APIs
Frontend: Angular (v8+), ReactJS, TypeScript, JavaScript, jQuery, Bootstrap, AngularJS
Cloud & DevOps: Microsoft Azure (Service bus, NCache, App Services, Functions, Blob Storage, Cosmos DB, Pipelines), AWS(EC2, S3, RDS, IAM, VPC, SES) , Docker, CI/CD, GitHub Actions, Azure DevOps, Bitbucket Pipelines
Databases: SQL Server, Cosmos DB, PostgreSQL, MySQL
Tools & Methods: Git, Jira, Postman, Visual Studio, VS Code, Agile/Scrum, Unit Testing, Clean Architecture

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Cosnet Global Solutions (Remote) | Aug 2024 - Present

- Lead development for ActionTruck Portal, a Canadian truck parts booking platform serving 10,000+ monthly users
- Improved application performance by 30% by optimizing the .NET Core backend and Entity Framework workflows and introducing Azure Service Bus and NCache for scalable, asynchronous processing.
- Automated CI/CD pipelines using Azure DevOps, reducing deployment time by 25%
- Collaborate with QA teams and stakeholders in Agile environment to deliver scalable features

Senior .NET Developer | Volumetree (Remote) | Apr 2023 - Jul 2024

- Modernized SaaS tooling by migrating monolithic APIs to microservices architecture, enhancing system reliability by 40%
- Integrated Azure Cloud Storage for improved data management and performance
- Awarded "Most Consistent Performer of the Year (2024)" for delivering high-impact enhancements ahead of schedule

Senior Software Developer | Turing (Remote) | Jun 2022 - Apr 2023

- Led frontend modernization of InvestCloud Wealth Management Platform from AngularJS to Angular 9+
- Designed modular APIs using ASP.NET Core and CQRS pattern, increasing test coverage by 35% with Jest
- Automated CI/CD processes using Git, reducing release cycles by 20%

Senior Software Developer | Optimus Information Inc. (Remote) | Apr 2021 - Jun 2022

- Migrated the Cymax eCommerce portal from .NET Framework to .NET Core, modernizing the architecture and integrating Azure Service Bus and NCache to enable scalable, asynchronous processing—resulting in a 40% reduction in latency while supporting 500K+ users.
- Integrated ElasticPath API and BuzzerVoice analytics for enhanced scalability and customer insights
- Implemented Azure CI/CD pipelines and Bitbucket automation for streamlined deployments

Senior Software Engineer | Avishkar IT Services (Remote) | Mar 2020 - Apr 2021

- Developed AI-powered CCTV Tracking System using Azure Cognitive Services, reducing manual monitoring by 60%
- Built Angular dashboards for violation analytics and automated image processing via Azure Blob Storage
- Mentored 3 junior developers and conducted code reviews to ensure quality standards

Software Engineer | TekGrid Consulting Services Pvt. Ltd. | July 2018 - Mar 2020

- Built and maintained business-critical web applications using ASP.NET MVC and Angular.
- Improved application stability by resolving complex production issues.

Jr. Software Developer | ASK-EHS Engineering & Consultancy | July 2015 - Mar 2018

- Built and maintained business-critical web applications using ASP.NET MVC and Angular.
 - Improved application stability by resolving complex production issues.
-

PROJECT PORTFOLIO

ActionTruck - Truck Parts Booking Portal (Canada) | Cosnet Global Solutions

- Enhanced booking experience by optimizing workflows and backend logic for Canadian truck parts retailer
- Implemented Azure Functions for serverless processing and integrated CI/CD pipelines using Azure DevOps
- Participated in full SDLC including requirements analysis, development, testing, and deployment

InvestCloud - Wealth Management Platform | Turing

- Led migration from AngularJS to Angular, significantly improving performance, security and maintainability
- Maintained backend APIs in ASP.NET MVC integrated with Angular frontend
- Implemented unit testing with Jest and automated builds/deployments through Git CI/CD

Cymax - Furniture eCommerce Portal (Canada) | Optimus Information Inc.

- Integrated BuzzerVoice for customer feedback analytics and ElasticPath API for improved scalability
- Migrated legacy codebase to modern .NET version, reducing technical debt and improving performance
- Automated CI/CD using Azure DevOps and managed source code via Bitbucket

CCTV Tracking System - Mask Violation Detection (Kuwait) | Avishkar IT Services

- Developed an AI-powered surveillance system for mask violation detection using Azure Cognitive Services. Implemented cloud-based face recognition workflows using **Azure Cognitive Services** and **AWS Rekognition** to analyze CCTV images stored in object storage.
- Developed dashboard showing violations by location and automated CCTV image extraction via Azure Blob
- Managed end-to-end deployment through Azure CI/CD pipelines

Restaurant Booking Management System - Online Ordering Support & Admin panel | Avishkar IT Services

- Developed platform for table reservations and online food ordering
- Streamlined order processing for kitchen staff and managers
- Implemented reporting and analytics to track peak hours, popular dishes, and customer trends

Bus Booking Management System | Avishkar IT Services

- Built system to manage bus listings, schedules, and seat availability
- Enabled users to search buses by “From” and “To” destinations and travel date
- Handled real-time booking confirmation, cancellations, and online payments
- Implemented reporting and analytics to monitor occupancy, revenue, and route performance

Property Management Portal (USA) | TEKGRID Consulting Services

- Designed architecture and repository pattern for U.S. housing association management platform
- Built Excel import tool for bulk onboarding, accelerating user setup by 30%
- Integrated Azure Functions and Cosmos DB for distributed storage and processing

Consignment & Logistics Management System | TEKGRID Consulting Services

- Developed consignment booking module for scheduling shipments and pickups
- Implemented real-time tracking system to monitor shipment status
- Built shipment management workflows to streamline deliveries and logistics
- Designed issue resolution features to handle lost shipments, delays, and customer complaints

SAFE-ZYDUS - Enterprise Safety Compliance & Access Control Platform | ASK-EHS Engineering & Consultancy

- Developed attendance management module for workforce tracking across multiple sites
- Built incident management system to log, track, and resolve safety incidents efficiently
- Implemented site inspection workflows for scheduled and ad-hoc inspections
- Created customizable safety compliance checklists to ensure regulatory adherence per site
- Designed secure RBAC-based authorization flows, restricting user access to permitted modules and actions
- Contributed to feature development, enhancements, and bug fixes for mission-critical compliance systems

Copy Trading Platform (Singapore) | ASK-EHS Engineering & Consultancy

- Integrated OANDA API to connect directly with users' trading accounts
 - Enabled users to follow experienced traders and automatically replicate trades
 - Automated trading actions such as open, modify, and close orders in follower accounts
 - Implemented performance monitoring to track trader activity and manage limits
-

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) | G.H. Patel Dept. of Computer Science | 2013

Bachelor of Computer Applications (BCA) | Veer Narmad South Gujarat University | 2010

Microsoft Azure Fundamentals (AZ-900)

Microservices Architecture & Implementation on .NET 5

ASP.NET Zero: Development with ASP.NET Core & Angular
